St Austell Town Council Objectives

Looking ahead to his year as Mayor, Councillor Hamilton has identified focus points for the Town Council;

- Continuing to reduce anti-social behaviour and make St Austell feel safer. This will include an extension to the existing CCTV system and further investment in street wardens.
- Progressing with the Town Centre Revitalisation Project which includes the construction of a new piazza outside Holy Trinity Church, and the replacement of the banner around the Poundland building. The Mayor considers it vitally important to improve the fabric of the Town Centre to help encourage commercial outlets to invest in the town.
- Replacing outdated play equipment. Funding has now been agreed for a new pump track at The Meadows Open Space. An exciting prospect that has got huge local support.
- In appointing a part time Community Projects Officer, Jessica Hyde, a few successful events have already been held and the Council has an extensive calendar of events for the rest of the year, which will help to bring the community together.
- Maintaining the Town Council's relationship with Cornwall Council to navigate the significant challenges ahead in feeding into a new local plan for Cornwall and addressing housing targets.
