C/26/76) Poltair Park accessibility and wheelchair swing

The Clerk advised that following receipt of an independent accessibility inspection and report and advice from an independent RoSPA Playground Inspector, his recommendation to Councillors is not to instal a wheelchair swing in any of the Town Council's public parks. He explained that to be used safely they can only be used under supervision and when not in use have to be kept locked to prevent mis-use. The Clerk added that Councillor Hamilton had visited the wheelchair swing in St Blazey and read out a statement expressing his concerns.

The Operations Manager advised that a wheelchair swing is not compliant with the BS EN1176 standard for childrens' playgrounds and expressed concern with regard to the lack of ground clearance and impact attenuation in particular.

During discussion, Councillor Taylor expressed her strong objection to the Clerks' recommendation and the advice received from a ROsPA inspector and the Town Council's Officers.

Other views expressed were as follows:

- The views of potential users of a wheelchair swing have not been obtained
- The need for sensory items and social mixing within parks
- Concern that a wheelchair swing would cause segregation of the user from other users of the park (as identified by a Councillor in another setting)
- The potential to form a Working Group to identify how the Town Council's play areas can be enriched with multi-sensory opportunities for all
- The potential to obtain lottery funding

It was **RESOLVED** that a Working Group be formed comprising of Councillors Bullock, Gray, Lingham and Taylor to explore the opportunities to extend the play equipment in the Town Council's parks to provide a multi-sensory environment which is as fully accessible and inclusive as possible.
